

Europe is a continent with a lot of differences. There are snow-covered mountains and glaciers, cool green valleys and countryside, and hot summer beach resorts. Tiny countries and huge ones join together to make up this continent – there are 46 countries altogether.

Europe is famous for its cities – modern and very old – and for its attractions like the Eiffel Tower in Paris and Buckingham Palace in London. Perhaps your favourite food is pasta or pizza? Both come from Italy in Europe!

Europe

Deer, United Kingdom

Geyser, Iceland

Izzi's Facts

How many countries?

46

Which hemisphere is Europe in?

Northern Hemisphere

Where is it?
