### Ordering Landewednack School Uniform

[www.schooltrendsonline.com/uniform/LandewednackPrimarySchoolTR127PB](http://www.schooltrendsonline.com/uniform/LandewednackPrimarySchoolTR127PB)

### Choughs Class

Children in Choughs class are looking to make their classroom and learning environment a little homelier this term (and always...) With this in mind we are asking if anyone has any lamps, plants and a maybe even a chair for our reading corner that they no longer use and would be happy to donate to the classroom. Huge thanks for what has been given to us already.

### Phonics Books

We are missing lots of our black & white and coloured Phonics books (from all colour stages) that would have been sent home weekly with the children in Reception, Y1 & Y2 (including last school year) We have asked the children and now politely ask parents too if they could have a check at home and please return any books belonging to school. Many thanks.

## Cross Country - Tuesday 24<sup>th</sup> February

The Cross Country season resumes on Tuesday 24<sup>th</sup> February at Helston Community College for our junior children. This race is the qualifier for the Peninsula finals and the top 8 runners from the Years 4, 5 & 6 will qualify for the Peninsula Finals (date and venue for this race to be confirmed nearer the time) Please let me (Lyndsay Bray) know via ClassDojo or email if your child/ren would like to run on the 24<sup>th</sup>!

## Flu Vaccinations

If your child missed the nasal flu vaccination (here at school) from Kernow Health last term, the team are offering some additional dates where parents/carers can just 'drop in' and have your child vaccinated.

In February the PTFA are running a **Bag2School** collection, so if anyone is thinking of clearing out space in their wardrobes...please hold off on that trip to the charity shop! We will be making a massive drive for donated clothes and eligible items next month and will send out further information closer to the time.

# QUIZ NIGHT

★ Raffle prizes to be won! ★

Friday 6<sup>th</sup> February

7:00pm

The Lizard Football Club

£3 per person | Pay on the door

Max 6 per team

Join us for a fun night of quizzing while raising vital funds for Landewednack School & Little Lizards Nursery. Every penny raised helps support school trips, activities, equipment and special experiences for our children.

Bring your team, test your knowledge and support a great local cause! ♥

This week's 'Picture News', shared with the children during our Wednesday assembly and for their grown ups to share with them at home.....

## TAKEHOME

19th - 25th January

## In the news this week

Recently, a new award, called the Jane Goodall Earth Medal, has been created to celebrate people who work to help others and care for the world. It is named after Dr Jane Goodall, who spent her life protecting animals and encouraging people to look after nature. The award recognises kind and caring actions that make a positive difference, even when people are not looking for praise.

### Things to talk about at home ...

- What do you think about the new award? Share with someone at home. Do you believe it's important to recognise kind actions?
- Can you think of someone you know who helps others or cares for the world in everyday ways?
- Can you come up with other ways that people can be recognised for their actions?

Please note any interesting thoughts or comments

## Let's look at this week's story

Recently, a new award, called the Jane Goodall Earth Medal, has been created to celebrate people who work to help others and care for the world. It is named after Dr Jane Goodall, who spent her life protecting animals and encouraging people to look after nature. The award recognises kind and caring actions that make a positive difference, even when people are not looking for praise.

## Mutual Respect and Tolerance

The Jane Goodall Earth Medal shows us that being respectful means looking after all living things. It encourages tolerance by focusing on a goal that brings different cultures and beliefs together to protect our world.

January

#### Chess... Splash!

A very different chess game has been played in the Netherlands. The Diving Chess World Championships took place at the bottom of a swimming pool! The chessboard sits under the water on the floor of the pool. The black and white pieces and special board are magnetic, so nothing drifts off for a little swim! Players take turns to dive down, look carefully, and make one move while holding their breath. Then they pop back up for air. It is like playing chess and doing a dive at the same time! At the latest games, Dutch player Zyon Kollen won the men's title. In the women's event, 17-year-old Josephine Damen, also from the

Netherlands, took the top spot. One diving chess player, Zarein Dolab, said about the game, 'I thought it would be a breeze, but it definitely isn't.' Chess is a very old game that people have played for about 1,500 years. Diving Chess started much later and began in 2012.

**Do you know how to play chess? Would you like to play it underwater?**

#### Caring Café

A special café in Rushden, Northamptonshire, England, is helping people in a big way. Café 16:15 opened in July 2025 and is already doing so well that it wants to grow even more. The café is part of a charity called Project 16:15, which helps people who are

homeless. It was started by Stan Robertson, who was once homeless himself. The café is run by volunteers, and all the money it makes goes back into helping others. The café raised a lot of money in its very first month, so it has already helped pay for more outreach workers to support people in the local area. Many people in the community visit the café to enjoy the food and support the charity at the same time. Stan Robertson said, 'We've really become part of the community.' The charity hopes to open another café in Wellingborough and, one day, a drop-in centre in Northampton to help even more people. **How else can a community show that it cares?**

#### What role will reading play in our future?

Reading will still help us enjoy stories and learn new things in the future, even if books change!  
**Edward**

## Celestial Sights

Saturn and the Moon will share the sky on 23<sup>rd</sup> January as part of a conjunction! From our perspective here on Earth, they will appear to be close together, even though they are actually very far apart. A conjunction involves either two objects in the Solar System, or one object in the Solar System and a more distant object, such as a star. To see the spectacle, you will need to look up and to the west, Saturn will appear to be just below the moon, sparkling in the night sky. Saturn, named after the Roman god of agriculture and wealth,

**Pictured:** Saturn image observed by NASA's Hubble Space Telescope. **Source:** NASA Ames Research Center on Facebook.

**Pictured:** A full moon. **Source:** NASA - National Aeronautics and Space Administration on Facebook.

is the sixth planet in our Solar System and the second largest after Jupiter. The planet famously has huge, beautiful rings made of ice, dust, and rock. NASA states on its website, 'Saturn is a massive ball made mostly of hydrogen and helium. Saturn is not the only planet to have rings, but none are as spectacular or as complex as Saturn's. Saturn also has dozens of moons. From the jets of water that spray from Saturn's moon Enceladus to the methane lakes on smoggy Titan, the Saturn system is a rich source of scientific discovery and still holds many mysteries.'

**Would you like to see this conjunction? Do you know any facts about Saturn?**

## Highest Sky Surf Skydive

Skydiver, Olga Naumova, from Belarus, has completed a freefall from the highest altitude ever – 20,945 ft (6,384 m) – while sky surfing above the Nepalese mountains! Sky surfing is a relatively new sport developed in the late 20<sup>th</sup> century. It is a combination of

**Pictured:** Olga with her world record certificate. **Source:** Olga Naumova on Facebook.

**Pictured:** Olga during a Skysurf Skydive. **Source:** Olga Naumova on Facebook.

free-fall skydiving from a helicopter and the riding techniques from surfing and snowboarding. Athletes use a lightweight board strapped to their feet to control their descent, before opening their parachutes to land. The veteran sky surfer, who has completed more than 17,000 skydives over the last 15 years, said, 'Since I discovered sky surfing, it was my dream to perform a very unique skydive and to inspire girls around the world not to be scared, to be bold and to dream big.'

**Have you ever heard of this sport before?**

**Can you think of any other sports that could be combined?**

## What role will reading play in our future?

Reading is a very import skill that will help us to do lots of things as we grow up.  
Kit
